Re: Bee Bayou Site
PPM Project No. 115406
Richland Parish, LA

Dear Mr. Chase

This is in response your letter dated May 7, 2013, concerning the above-referenced project. We have reviewed the enclosed information and there are no known archaeological sites recorded on this property. However, based upon the geographic location and the proposed size of the development; it is the opinion of our office that there is potential for the presence of archaeological sites on the property.

Richland Parish has a long history of both prehistoric and historic settlement. Therefore, we are recommending a Phase I cultural resources survey be conducted prior to any development. A contracting archaeologists list is available on our website at <http://www.crt.state.la.us/archaeology>. If you have any questions, please contact Rachel Watson in the Division of Archaeology at (225)342-8165.

Sincerely,

Pam Breau
State Historic Preservation Officer
