Exhibit F. Pointe Coupee Power Park Potable Water Infrastructure Upgrade Letter

Mr. Jim Cavanaugh
Baton Rouge Area Chamber of Commerce
564 Laurel Street
Baton Rouge, LA 70801

**Re: *Pointe Coupee Parish
Potential Industrial Site
Designated as the "Olinde" Site***

Dear Mr. Cavanaugh,

As a scope of work, you asked PESI to estimate the furnished and installed cost of a water system to supply 50,000 gallons per day to serve a potential industrial site designated as the "Olinde" Site in Pointe Coupee Parish.

For planning purposes, this site can be served by a water well and pressure tank at a budget figure of \$700,000.00. This budget figure does not include any costs associated with infrastructure for the site.

PESI is of the opinion that this water system can be furnished and installed within 180 days from the time the project engineer is authorized to begin site design.

Please call should you have any questions.

Thank you,
PATIN ENGINEERS AND SURVEYORS, INC.

Thomas R. Olinde, P.E.
